TEXAS REPORTS ON BIOLOGY AND MEDICINE
INDEX FOR VOLUME 22, 1964

Subject Index

Absorption and excretion of benzpyrene when fed to mice, 156
Abstracts of papers, Fifth Annual Student Research Forum, University of Texas Medical Branch, 1964, 764
Abstracts of papers, Southern Regional Conference on Comparative Endocrinology, American Zoological Society, Fall Meeting, 1963, 203
Abstracts of papers, Texas Branch of American Society for Microbiology, Fall Meeting, 1963, 218
Abstracts of papers, Texas Branch, American Society for Microbiology, Spring Meeting, 1964, 648
Acetate incorporation in brain and muscular dystrophy, 126
Acute glomerulonephritis: review of recent advance, 661
Adrenal glands, autotransplantation, effects of somatotropin on ascorbic acid, 522
Adreno-medullary cells of the Syrian hamster following intraperitoneal injections of insulin, structural alterations of, 756
Alpha-aminoisobutyric acid uptake in normal and dystrophic muscle, see Suppl. 1
Antisera, hormonal, in suppression of sarcoma 180 growth, 9
Approaches to the in vitro study of muscular dystrophy, see Suppl. 1
Ascorbic acid, influence of somatotropin in autotransplanted adrenal glands, 522
Assessment in the treatment of muscle disease, see Suppl. 1
Association-induction hypothesis, 244
Atherosclerosis, mechanical factors in, 70
Autonomic interactions in peripheral sympathetic nervous system, a concept of, 375
Avian neoplasms, submicroscopic morphology of, 20
Avian species, muscular dystrophy in, see Suppl. 1

Bacteriuria in pregnancy, 336
Basic aspects of muscle contraction, see suppl. 1
Benzpyrene fate in mice, 156
Behavior and population density, 266
Bioflight and cellular viability, 517
Bittner virus, density gradient studies in, 609
Blood clotting and fibrinolytic studies in patients with muscular dystrophy, see Suppl. 1
Bone cells in tissue culture, emigrating, mineralization of, 174
Bovine kerato-conjunctivitis, experimental induction of, 741
Brachium conjunctivum and cerebellum, 504
Burns, renal patho-physiology in, 348
Burns and sulfur content in liver and kidney, 440

Catalase activity in mycobacteria, 327
Cerebellar connections: I. Cortical projections to the deep cerebellar nuclei, 492
Cerebellar connections: II. Origin, course and terminations of the brachium conjunctivum, 504
Chromosomal changes in 101st passage, rabbit endothelial cells, 322
Chromosomes of rabbit endothelial cells, 101st passage, 322
Cortico-cerebellar tracts, 492
Corticosterone synthesis by adrenal homogenates and guanosine metabolism, 722
C-reactive protein analogue in fowl blood, 716

Cytochrome C reductase and cytochrome C oxidase in experimental muscle disorders, see Suppl. 1

Deciduomata, experimental production in immature rats, 78
Density gradient centrifugation studies of the Bittner virus, 609
Diabetes mellitus in an American Indian population, 110
Dispersal of dye, tests of formulas for, 585
Dispersal of slugs of indicator dye in a tube with laminar flow, 566
Ducks, occurrence of muscular dystrophy in, see Suppl . 1

Electromyography, use in study of muscular diseases, see Suppl. 1
Emperipolesis in malignant lymphoma, 61

Fluid supersaturation with oxygen, by decomposition of hydrogen peroxide, 106
Fluothane-ether azeotrope, measurement of its vapor pressure, 315

Genetic patterns in families with members having muscular dystrophy, see Suppl. 1
Glomerulonephritis, acute, review, 661
Goldthioglucose as an experimental tool, 229
Glucose absorption by jejunal epithelium, and effect of starvation, 410
Guanosine metabolism and corticosterone synthesis by rat adrenal homogenates, 722

Heart muscle mitochondria, the structure and function of, see Suppl. 1
Hexosemonophosphate dehydrogense activity in the developing skin, 550
Host specificity of Trypanosoma gambiense, 707
Hypercalemia, urinary concentrating ability and associated renal sodium changes, 165
Hypertension, salt, facilitated induction in two rat strains, 529
Hypertensive cardiovascular disease in hypophysectomized rats, 94
Hypophysectomized rats, hypertensive cardiovascular disease in, 94

Indian, American, and diabetes mellitus, 110
Insulin and alterations of adreno-medullary cells, 756
Iron metabolism, as influenced by excess dietary methionine, 170

Kerato-conjunctivitis, experimental induction of infectious bovine, 741
Kidney microanatomy and pathology, quick-freeze technique in study of, 628

Laminar flow, as measured by dispersal of slugs of indicator dye, 566
Laminar flow, tests of formula for dispersal of indicator dye, 585
Leucine incorporation in brain and muscular dystrophy, 134
Leukoses, cattle, and human lymphadenoses, 3
Lymphadenoses, human, and cattle leukoses, 3
Lysine incorporation in nucleolar proteins, effect of uracil mustard on, 444

Malignant cells, human, and photo-protection, 152
Malignant lymphoma, a study of emperipolesis in tissue culture of lymph nodes from patients with, 61
Mast cells and muscular dystrophy, 640
Mechanical factors in atherosclerosis, 70
Methionine ingestion, influence on iron metabolism in rats, 170
Mevalonic incorporation in brain and muscular dystrophy, 143
Microbial utilization of phenylalanyl peptides, 697
Mineralization of emigrating bone cells in tissue culture, 174
Mitochondria, structure and function in heart muscle, see Suppl. 1
Muscle contraction and associated metabolism, see Suppl. 1
Muscle contraction, basic aspects of, see Suppl. 1

Muscle disease, assessment of, see Suppl. 1
Muscle metabolism as seen in single-twitch experiments, see Suppl. 1
Muscular diseases, as studied by electromyographic methods, see Suppl. 1
Muscular dystrophy and acetate incorporation in brain, 126
Muscular dystrophy in avian species, see Suppl. 1
Muscular dystrophy, blood clotting and fibrinolytic studies in, see Suppl. 1
Muscular dystrophy, an evaluation of therapy in, see Suppl. 1
Muscular dystrophy, genetic patterns in, see Suppl. 1
Muscular dystrophy and leucine incorporation in brain, 134
Muscular dystrophy, mast cells, thymectomy, and tumor rejection, 640
Muscular dystrophy and mevalonic incorporation in brain, 143
Muscular dystrophy, occurrence in White Pekin duck, see Suppl. 1
Muscular dystrophy, radioautographic studies in, see Suppl. 1
Muscular dystrophy symposium, see Suppl. 1
Muscular dystrophy, uptake of α-aminoisobutyric acid in, see Suppl. 1
Muscular dystrophy, in vitro study of, see Suppl. 1
Mycobacteria, catalase activity in, 327

Neoplasms, submicroscopic morphology of avian, 20
Nucleic acids synthesis, effect of uracil mustard on, 731

Osteomyelitis complicating a sickle-cell thalassemia syndrome, 356
Oxygen supersaturation of biologic fluids, by decomposition of hydrogen peroxide, 106

Papillomas, human laryngeal, study of histology and virus particles, 454
Phenylalanyl peptides, microbial utilization of, 697
Photo-protection and human malignant cells, 152
Pituitary-ovarian imbalance in goldthioglucose treated mice, 679
Plasma analogue of C-reactive protein, 716
Population density and behavior: a review of theoretical and physiological contributions, 266
Production of deciduomata, experimentally in immature rats, 78
Protein studies and the association-induction hypothesis, 244
Pyridine nucleotide changes in skeletal muscle, see Suppl. 1
Pyrimidine deoxyribonucleosides, inhibition of uracil catabolism, 431

Radioautographic investigations of muscular dystrophy in the mouse, see Suppl. 1
Renal studies, acute pathology and microanatomy, 628
Renal concentrating ability, alteration by calcium excess, 165
Renal patho-physiology in severe burns: five-year review of kidney pathology in fatal burns, 348
Runt disease, its pathogenesis, 591

Salt hypertension: facilitated induction in two rat strains, 529
Sarcoma 180, suppression of growth by hormone antisera, 9
Skeletal muscle disorders, $NADH_2$ cytochrome C reductase and cytochrome C oxidase, see Suppl. 1
Skeletal muscle, pyridine nucleotide changes in, see Suppl. 1
Skin and hexosemonophosphate dehydrogenase activity, 550
Somatotropin influence on ascorbic acid, 522
Staphylococcal toxoid, immunological study in patients, 424
Starvation and glucose absorption on PAS-reactive granules in jejunal epithelium of mouse, 410
Submicroscopic morphology of avian neoplasms, 20
Sulfur content in liver and kidney, effect of burns, 440

Sympathetic nervous system and autonomic interactions, a concept of, 375

Thalassemia and osteomyelitis, 356
Therapy evaluation in muscular dystrophy, see Suppl. 1
Thioglucose tagged for experimental purposes, 229
Thioglucose treatment and abnormal pituitary-ovarian relationship, 679
Thymectomy and muscular dystrophy, 640
Trypanosoma gambiense infection in various species of experimental animals, 707
Toxoid, staphylococcal influence on patients, 424
Tumor rejection and muscular dystrophy, 640

Ultraviolet radiation, sensitivity of x-irradiated cells to, 556
Uracil catabolism, inhibition by pyrimidine deoxyribonucleosides, 431
Uracil mustard effect on lysine incorporation in nucleolar proteins, 444
Uracil mustard, its effect on in vivo incorporation of precursors into nucleic acids of the Walker tumor, 731
Ureteral transplantation for chronic studies, 692
Urinary infections in pregnancy, 336

Vapor-pressure measurement of fluothane-ether azeotrope, 315
Viability of mammalian cells during bioflight, 517
Virus particles and human laryngeal papillomas, 454

X-irradiated cells and sensitivity to ultraviolet radiation, 556
